

A-Board

signs

ADVANTAGES

A WIDE RANGE USING
THE MAIN COLOR CODES
AND SAFETY PICTOGRAMS.

Hook that allows
to fix a
signalling chain
between 2 A-board
signs

Strong design
with
holding
reinforcements

Ergonomic handle for a
better grip of the sign

Fixing clamp to keep
panels opened

Wide printing surface
for a better reading of
the text

Wide opening for an
excellent stability

Locking when
panels are closed

- Material: Polypropylene.
- Indoor/Outdoor use.
- Height: 600 mm. Width 275 mm.
- Weight: above 800gr.
- Easy to dismantle and store flat. Thickness: 23 mm.
- Space saved when stored
- Printable surface: 245 x 350 mm

ANTI-SKID ADHESIVES

For indoor marking

- Anti-skid adhesive to make any potentially slippery and dangerous area secure and thus avoid all falling risks. Its rough surface gives it a very strong anti-skid power. Can be positioned on all kind of surface (stairs, warehouse, office, basement...). Support must be clean, smooth and dry before positioning the adhesive for an optimum holding.
The Black + phosphorescent tape version make the adhesive always visible even in the dark.
- Support in PVC
- Highly waterproofed
- T° of use: from + 15° C to + 30° C
- Width: 25 or 50 mm (except Black/phosphorescent only in 50 mm)
- 18 or 6 meters rolls
